PROFILE

I am a Software Engineering student in my third semester, enthusiastic about software development. I am seeking an internship to utilize my skills, acquire new technologies, and contribute to cutting-edge projects. I am diligent, collaborative, and determined to excel as a proficient professional in the field of software engineering.

SKILLS

- **Programming:** Programming Logic (procedural and functional, object orientation), Algorithms
- **Languages:** Python (PySide6, Selenium, Django), C# (monoliths and microservices), JavaScript, and TypeScript (beginner level).
- **Web Development:** HTML5, CSS3, Django (website and API creation)
- **Databases:** SQLite3, MySQL, MariaDB, SQL with MySQL
- **Automated Testing:** Python (basic Test-Driven Development)
- **Design Patterns:** Gang of Four Design Patterns, Clean Code
- **Version Control:** Git and GitHub
- Intermediate English

EDUCATION

INDUSTRIAL AUTOMATION TECHNICIAN

SENAI

2021 - 2022

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING

Anhanguera

2023 - 2026

EXTRACURRICULAR

PYTHON 3: FROM BASICS TO ADVANCED

Luiz Otávio Miranda - Udemy

2023 - currently

- Programming logic, procedural, functional, and object-oriented programming
- Python modules like PySide6 for Graphical Interface with Qt 6, Selenium, and Django.
- Django for website and API development
- Relational database management systems: SQLite3, MySQL, and MariaDB
- Automated Python testing (with basic TDD)
- Design Patterns (Gang of Four Design Patterns)
- Extra: Regex
- Extra: HTML5 and CSS3
- SQL with MySQL
- Unix Command Line Interface (CLI) for Linux, Mac, and Windows WSL2

AUPAIR EXCHANGE

CULTURAL CARE

2024 - currently

- language skills
- cultural skills
- problem-solving skills
- good time management
- decision-making
- cultural awareness
